

Company overview

Founded in 2021, Genese Solutions LLC is a SAM.gov-registered small business headquartered in Frederick, Maryland. We design and build custom software and mobile applications, automate complex business processes, and provide senior technology leadership to federal, state, and local agencies, prime contractors, nonprofits, and commercial organizations. Our leadership brings more than 20 years of experience across enterprise IT, healthcare technology, program management, and systems implementation in regulated environments. We deliver directly to agencies and team with primes on software engineering, automation, and advisory task orders.

Core competencies

- **Custom software and application development:** secure web applications, case management systems, portals, and APIs
- **Mobile applications:** iOS, Android, and cross-platform apps for field operations and constituent services
- **Business process automation:** workflow re-engineering, forms digitization, approvals, and document processing
- **IT modernization and systems integration:** legacy assessment, cloud migration planning, and data integration
- **Responsible AI enablement:** governed AI assistants and document intelligence
- **Program management and IT advisory:** PMO support, requirements analysis, vendor oversight, and fractional CTO services

Differentiators

- **Executive-led delivery** with senior leadership accountable on every task order
- **Healthcare-grade compliance experience** with audit, security, and regulated data
- **Small business agility** for fast mobilization without large-firm overhead
- **Set-aside eligible**, helping primes meet small business subcontracting goals

Relevant experience

Healthcare nonprofit: access-management platform

Role-based request, approval, and audit application across partner systems, replacing email and spreadsheet tracking with a single reviewed workflow.

Home care provider: mobile operations platform

Mobile scheduling and visit documentation with offline capture, and compliance reporting generated from the same records.

Growth-stage company: fractional CTO

Consolidated overlapping tools onto a documented architecture, with a single roadmap and monthly executive reporting.
